Welcome to celebrate the University with the USV Centres on 15th September, 2017

On the evening of 15th September 2017 all students and staff will join together for a very special party to celebrate the great achievements of the University during its 350 year long history.

To start off the festivities, Bo Ahrén and the USV Office would like to invite all students and staff at the USV centres to a pre-party in the grounds of the Pufendorf Institute for Advanced Studies and Lund University Centre for Sustainability Studies, LUCSUS.

During the pre-party we would like to take the opportunity to highlight the work and research of the USV - through a programme of mini talks aimed at our students and staff.

Researchers from various USV centers will talk on themes such as energy transitions, transdisciplinary research, the internet paradox in China, the long term effect the emigration to the US is having on Swedish business, men’s rights activist groups online, and commercial datafication. The programme will also include a guided tour of the Pufendorf IAS – taking in the history of the building from Fysicum to Classicum to the Pufendorf IAS.

We are looking forward to seeing you there!

Bo Ahrén and the USV Office
